

Westray

... Queen o' the isles

Westray is sprinkled with wonderfully atmospheric locations for you to explore. Spectacular sea cliffs, sandy beaches, rocky shores and undulating hills offer spirit-swelling locations for photographers, artists and lovers of empty places.

A voyage out along the old Viking sea route to Westray is an essential element in any Orkney adventure.

Here the unique flavour of Orkney's island fringe can be experienced to the full. The exquisite workmanship and artistic talent of the ancient peoples we have encountered on other islands is illustrated by the Westray Stone, a rock carving found in a tomb at Pierowall, the island's largest settlement, in 1981. The spiral and lozenge design is the finest of its kind in Scotland and is permanently on display in the Westray Heritage Centre. Of the earliest Christian settlers the best evidence is again found in the lonely rock-stack or island hermitages such as at the Castle o' Burrian (also a marvellous place to see Puffins) and on the Holm of Aikerness.

The Orkneyinga Sagas, the tales of the Viking occupation of Orkney paint a vivid picture of Westray during the early 12th century and Westray families operating from power bases at Rapness, Pierowall and Tuqouy played important roles in the political life of the isles.

Plant & animal life

The western cliffs and hills behind support a rich variety of northern maritime vegetation. The spray-sweep has created unusual clifftop salt marshes and behind this the maritime heath. Vikings are thought to have brought angelica to the island and it can still be found growing around Pierowall Bay. Seals, of course, are plentiful around Westray but whales, dolphins and porpoises are occasionally seen. Other attractions are the otter families and tell-tale tracks through rough vegetation will indicate the presence of the indigenous Westray vole.

Birdlife

Noup Head cliffs are first port of call for birdwatchers. Huge numbers of nesting seabirds can be seen between April and July. It is also possible to see Peregrine Falcons on the island's cliffs and Ravens successfully breed each year, raising their young in nests often built from barbed wire. The rare corncrake with their characteristic call has been heard on summer evenings. Among the smaller birds the Wheatear can be seen skipping along the drystone dykes. Puffins are a great attraction at the Castle of Burrian and at Noup Head. Gannet numbers have increased dramatically in recent years at Noup.

Industry

Westray is one of the most productive farming areas in Orkney with beef cattle a main contributor to the island's economy. Sea-faring is also deep rooted, a trait inherited from the Norse ancestors and the island has developed a modern fishing industry which includes white fish trawling and creel fishing for crab and lobster. Velvet crabs provide a significant contribution to the local economy and are exported to Europe. The modern factory at Gill pier exports processed crabs throughout Britain and Europe, and visitors are welcome to look around the facility. W. F. M. Brown is a family-run bakery at Gill Pier, which supplies daily bread and other baked products to local and mainland Orkney shops and also exports their shortbread, biscuits and cakes to shops further afield.

Westray's tourist industry plays a vital part in the local economy, providing facilities for camping and caravans, one hostel, two hotels, several B&Bs and self-catering cottages.

The Craft and Heritage Trail tempts visitors to explore the island and see the varied shops, galleries, jewellery makers, knitters and straw-backed chair making, returning to Pierowall village to the newly enlarged Heritage Centre next to the Pierowall Hotel.

Points of interest

- 1 St. Mary's Medieval Parish Church, Pierowall:** This ruined church is one of two Middle Ages kirks in Westray; most of the structure dates from the 17th century but the south wall is a remnant of the original 13th century structure.
- 2 Noltland Castle:** This fortress was erected in the second half of the 16th century by Gilbert Balfour who held high office under Mary Queen of Scots.
- 3 Links of Noltland Prehistoric Settlement & Wild Flowers:** During the late 1970s an extensive area of settlement was excavated on the Links. Houses and middens, now covered over, were contemporary with Skara Brae (3000BC). Sand dune and dune pasture supports Eyebright, Felwort, Cowslip and Sandwort - this site has been re-opened for further examination.
- 4 Knowe of Queena Howe:** Deriving its name from the old Norse kvi 'enclosure' and haugr 'mound' this conspicuous mound probably contains a broch tower which is surrounded by extensive settlement. Stonework can be seen in the eroded shoreline. Nearby excavation has exposed a settlement pre-dating Skara Brae. (see 3 above).
- 5 Lochs – Breeding Wildlife and Waders:** Westray's two largest lochs, Burness, and Saintear are rich in breeding wildfowl and waders and are also popular with anglers for trout fishing. Mute swans breed in both lochs and Whooper swans overwinter here.
- 6 Noup Head Lighthouse:** This lighthouse was constructed in 1898 to warn ships off the North Shoal. First lighthouse to use a system of mercury flotation in the revolving carriage. Automated in 1964.
- 7 Noup Head R.S.P.B. Reserve:** Cliffs extend here to five miles and the northernmost section is the reserve which in terms of number of breeding seabirds is second only to St Kilda. A 1978 survey revealed over 40,000 Guillemots, 1,200 Razorbills, 1,000 Fulmars and almost 25,000 pairs of Kittiwakes. Gannets now breed here.
- 8 The Gentlemens' Cave:** Place of refuge for Orkney lairds who supported the 1745 uprising, said to be linked by an underground passage to Noltland Castle. Access is now too dangerous to visit.
- 9 Northwest Coast and North Hill:** West-facing cliffs are very exposed; Thrift, Sea Plantain, and Buck's horn Plantain are abundant and immediately inland from the cliffs nest Skuas and Arctic Terns.

10 Heritage Centre: A permanent exhibition of Westray's history, flora and fauna can be seen here next to the Pierowall Hotel. In addition to the permanent exhibition, each year sees a new exhibition on a specific local topic. Local crafts can be purchased; limited opening hours. Now has an extensive database of churchyards and houses and a growing genealogy section.

11 Fitty and Skea Hills: Very rich maritime sedge-heath. Several of the plants found here are such as typically occur at high altitudes in mountain environments. The *Primula Scotica* can also be found.

12 Bay of Kirbest: On this storm beach Sea Mayweed, Sea Campion and Scottish Lovage can be found.

13 Knowe o' Burristae Broch: This large mound contains a broch tower partly destroyed by the sea. Part of the curved wall is still standing and the entrance to a mural cell or passage can be seen.

14 Tuquoy – Cross Kirk Medieval Parish Church and Norse Settlement including Heritage Walk: Cross Kirk is one of the best constructed churches in Orkney and a large Norse settlement lies to the west where massive walls are being exposed in the shoreline.

15 Bay of Tuquoy: A localised area of saltmarsh occurs at the head of this large sandy bay.

16 Castle o' Burrian & Stanger Head: Precipitous rock stack was an early Christian hermitage; possibly the best place in the isles to watch the comings of the cliffs, the Puffins. No attempt should be made to climb the stack. Great care should be taken on these clifftops. Stanger Head is a favourite haunt of the entire range of Orkney's seabirds.

17 Holm of Faray & Rusk Holm: Important breeding site for Grey Seals. Each autumn large numbers concentrate here to mate, the pups being born in October. Rusk Holm is inhabited by native sheep, descendants of the original sheep brought from Norway by the Vikings 1000 years ago. Visits are possible by arrangement locally.

18 Holm of Aikerness: A good site to see Common Seals which pup in June, and home to 150 North Ronaldsay Sheep.

19 West Westray Walk: from Kirbest to Noup Head, this walk displays nature at its best. Estimated time to complete = 3 1/2 hours.

20 Quoygrew: archaeological site, seasonally excavated in recent years, now consolidated and open to the public. Considered to be one of the finest examples of Viking archaeology in Orkney.

21 Pontoons: floating facilities and showers are situated at Gill Pier for use by visiting yachts etc.

22 Knowe o' Skea: archaeological site, seasonally excavated in recent years.

23 Tourist Information Point: Leaflets and guidance on all aspects of Westray's visitor services. Café serving light lunches, breakfasts and early evening meals. Local crafts for sale.
